

QUALITY, ENVIRONMENTAL AND OCCUPATIONAL RISK PREVENTION POLICY

Laboratorio Electrotécnico, s.c.c.l., Transformer Division, establishes the following principles as its Quality, Environmental and Occupational Risk Prevention Policy:

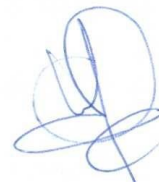

- To adapt our products to the needs of the market and our clients' requirements, by promoting improvements in work, production processes, and reducing waste generation.
- To update our products with new designs which include the available technical improvements, both technological and environmental, and to meet our clients' requirements.
- To comply with the environmental, industrial, and health and safety legislation applicable to our activities and products, and with other requirements to which we subscribe.
- To prevent pollution that may be caused by all our activities, products and processes, by identifying, checking and controlling all the environmental aspects that may be generated.
- To continually improve our environmental behaviour and the effectiveness and efficiency of our processes by planning and monitoring our objectives periodically.
- To raise awareness amongst our personnel of environmental management and occupational risk prevention. by means of introducing good environmental and health and safety at work practices.
- To guarantee the participation of and information for all our workers, the right to be consulted and sufficient and appropriate theoretical and practical training on the different risks that are specific to their job, and general risks in the company, as well as raising environmental awareness for activities that are carried out.

Therefore, the Management of **Laboratorio Electrotécnico, s.c.c.l.** commits to complying with this Policy, which has the aim to develop and improvement the Integral Management System, as well as to make sure all the people at **Laboratorio Electrotécnico, s.c.c.l.** respect the provisions described in the documentation of the System.

The General Management, not affecting its responsibilities, authorises the Quality and Environmental Manager for the application of this Policy.

This policy will be communicated to all the personnel who work at **Laboratorio Electrotécnico, s.c.c.l.** or in its name.
